

MA CENTER CHICAGO PRESENTS: A TALK BY WARREN BRUSH, ONE OF THE TOP EXPERTS IN PERMACULTURE

PEACE IN PERMACULTURE

INTEGRATING STEWARDSHIP, SUSTAINABLE DESIGN AND
PEACEMAKING INTO OUR LIVES AND COMMUNITIES

In a world that desperately needs us to be caretakers and stewards of the ecologies that sustain us, we must look to nature and our awareness of natural patterns for guidance in how to redesign our human support systems. We are living in a time where we must answer to the future generations with heart and right-action through mentoring, stewardship ethics and by "planting trees that we may never get the opportunity to sit within their shade."

Join international permaculture teacher, mentor and storyteller, Warren Brush, for an inspiring evening of stories and images that will take you on a journey into his extensive peace-nurturing work through the worldwide Permaculture movement that brings sustainable and equitable living to people and communities in America, Africa, Australia, the Middle East, and Europe.

Warren will share a hopeful vision for our future that derives from his experiences and understandings gained from his lifelong work in mentoring youth and adults in the wilderness, learning from indigenous elders and cultures, working with child soldiers and distressed communities around Africa, and designing sustainable human living systems and settlements around the world.

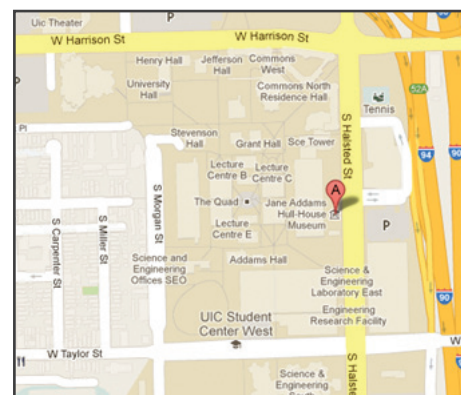

Sunday, February 10, 2013
